

**SC DHEC Oral Health Division**

**2007-2008**

**School Administration Satisfaction Survey**

In order to provide you with the best dental care possible through the school dental program, we want to know how well the school dental program provider is doing now and what he/she might do better from your point of view. Please take a couple of minutes to provide us with important information to assist us in our effort to better serve you.

**Please circle the word that best describes your opinion.**

1. The school dental program works effectively with school personnel to provide oral health services with the least amount of disruption to the learning environment.
